 [Allen, Northern Samar, Philippines](#)

SUMMARY

Over 3 years of experience delivering full-stack web systems in cooperative banking, e-commerce, and government projects. Known for reliable delivery, clean code, and collaborative teamwork. I help teams ship faster while ensuring performance, scalability, and user satisfaction.

EXPERIENCES

Mid-Level Software Developer - National Confederation of Cooperatives

July 2023 - March 2025, Quezon City, Metro Manila (WFH)

- Developed frontend of EkoopBanker Plus CASA V3 with React.js, Next.js, TypeScript, and Redux Toolkit with real-time Socket.IO integration for seamless core banking operations
- Contributed to backend API development using Node.js, Express.js, and SQL Server, handling banking transactions and financial data processing
- Independently developed a Fixed Asset module for EkoopBanker Plus Accounting V2 using ASP.NET and C#, delivering complete asset lifecycle management and automated financial reporting
- Implemented Crystal Reports integration for regulatory compliance and detailed financial data visualization, ensuring accurate reporting standards

Freelance Full-Stack Developer

January 2022 - May 2022

- Built comprehensive e-commerce dashboard using Laravel, PHP, and MariaDB with real-time inventory management and product tracking, featuring responsive Bootstrap and jQuery interface
- Maintained and enhanced existing e-commerce platforms by optimizing SEO performance and implementing multilingual support to improve accessibility and global reach
- Developed modern landing pages including Wilson Works (React.js with Tailwind CSS) and Libre (React.js with Sass) with smooth animations and contemporary UX design
- Collaborated with cross-functional teams to transform Figma mockups into fully functional user interfaces with seamless API integrations

Software Developer - Cloud Panda PH

October 2019 - March 2020, BGC, Taguig, Metro Manila (Onsite)

- Collaborated on government systems including DSWD Minors Travelling Abroad booking platform using PHP, CodeIgniter, and MariaDB with user-friendly approval workflows and document management
- Maintained Laguna Lake Development Authority certification platform, ensuring system stability and regulatory compliance through structured approval workflows
- Participated in code reviews and maintained quality standards, reducing technical debt and improving system maintainability across government projects
- Resolved critical performance issues through collaborative debugging and system optimization techniques

Jr. Web Developer - International Payment Processing

May 2018 - April 2019, Puerto Princesa City, Palawan (Onsite)

- Developed Customer Service Record Management System using HTML, CSS, jQuery, and JavaScript for efficient customer interaction tracking
- Built backend API using PHP and MySQL for customer service records, support tickets, and comprehensive data management
- Contributed to EMA V2 e-commerce platform development for merchant product and inventory management using full-stack PHP and MySQL architecture

SKILLS

Frontend Development

HTML, CSS, JavaScript, TypeScript, React.js, jQuery, Tailwind CSS, Bootstrap, Sass

Backend Development

Node.js, Express.js, Next.js, Socket.IO, PHP, CodeIgniter, Laravel, C#, ASP.NET

Databases

SQL Server, MariaDB, MySQL

Tools & Practices

RESTful API, Git Version Control, Agile Development, Crystal Reports, Redux Toolkit, Jest, MVC Architecture, Event-Driven Architecture

Emerging Technologies

AI Platforms (OpenAI, Anthropic), Agent Frameworks (LangChain, LangGraph, CrewAI), Model Context Protocol (MCP), Docker, Kubernetes

CERTIFICATES

Agentic AI Engineering (2025)

Certificate

Hands-on experience building autonomous AI agents, multi-agent systems, and orchestrated workflows with frameworks including LangGraph, CrewAI, and MCP Server.

DevOps Beginner to Advanced (2025)

Certificate

Acquired hands-on experience with AWS, Docker, Kubernetes, CI/CD pipelines, and infrastructure-as-code through professional certification

EDUCATION

Bachelor of Science in Information Technology (2018)

Palawan State University | Puerto Princesa City, Palawan
